

Dear doctors,

IMH-GP Collaborative Management of ADHD

The Department of Child and Adolescent Psychiatry, Institute of Mental Health is organising a training on the management of Attention Deficit Hyperactivity Disorder (ADHD) for doctors, pediatricians and psychiatrists. We have invited Dr Rosemary Tannock, a Senior Scientist at The Hospital for Sick Children and Professor of Psychiatry at the University of Toronto, as the expert trainer for this training programme.

This programme is part of the IMH-GP Partnership Programme, which is an initiative by the Ministry of Health for the right-siting of the management of chronic medical conditions.

The aims of the training workshop for family physicians are:

- To give a broad overview of ADHD and related conditions
- To equip doctors with the necessary skills to assess ADHD in children and adolescents and to understand how to manage ADHD across the life span
- To help doctors understand how to work with schools in managing children with ADHD

After attending this training, doctors who are interested to participate in the management of children and adolescents with ADHD can sign up with the IMH-GP Partnership Programme.

You are cordially invited to participate in this training as shown below:

Date: 26 August 2009, Wednesday
Time: 1800 – 2100hrs
Venue: Traders Hotel, The Gallery Room, Level 2
1A Cuscaden Road, Singapore 249716

Please note that dinner will be provided. Registration fees for this training will be waived for all doctors. In addition, CME points will be allocated for this event.

A handwritten signature in black ink, appearing to be 'Daniel Fung', written over a horizontal line.

Dr Daniel Fung
Senior Consultant and Chief
Department of Child and Adolescent Psychiatry, Institute of Mental Health

Duke-NUS Graduate Medical School, and Division of Psychology NTU
