

SPA Round: Issues in Intellectual Disabilities Psychiatry

- **Dr Elspeth Bradley as psychotherapist, psychiatrist, teacher and researcher has worked with people with intellectual disabilities over the past 25 years in Canada and in the United Kingdom.**
- **Her clinical work, teaching and research have been nurtured by an enduring curiosity about the impact of developmental and other life circumstances on behaviour, self experience and self expression. Ongoing clinical work is focused on the lived experience of people with intellectual disabilities particularly as this pertains to mental health concerns.**
