

SINGAPORE PSYCHIATRIC
ASSOCIATION

Singapore Young Psychiatrists and Trainees (SYPT) Section of the Singapore Psychiatric Association

The SYPT was founded in 2006 by a group of idealistic and motivated young psychiatrists lead by Dr Mok Yee Ming who believed that having an organisation that represented the trainees could help reach across individual institutions and create bonds and friendships that transcended past issues that plagued and continue to plague much of Singaporean psychiatry nowadays. The founders hoped that by creating this group, trainees could have a sense of group identity and feel part of something greater than just being a trainee.
